

Are Services Confidential?

Yes! Maintaining the confidentiality of SEAP services is a priority. All records, including medical information, referrals and evaluations are kept confidential in accordance with federal and state laws. No records or information can be released to anyone, including your employer, without your written authorization.*

What Should I Do in an Emergency?

If your situation is life threatening, you should go directly to a hospital emergency room or call 911 for assistance. If you have a question and don't know what to do, you can always call SEAP for help.

Who Will Provide Services to Me?

Services are provided by a large and diverse network of licensed and certified professionals — combined with an extensive database of community resources — to help you with any concerns that you are facing. For nonclinical issues, you can get advice from experts such as lawyers, financial consultants and mediators. For clinical matters, the network includes a full range of licensed clinicians. All of our SEAP network clinicians have passed the screening test for EAP expertise.
